Bailey Mine NOTICE 30-00072N: CONSOL Pennsylvania Coal Company, LLC (1000 CONSOL Energy Drive, Canonsburg, PA 15317) pursuant to 25 Pa. Code 127.44-127.46 for intent to issue Air Quality plan approval for authorization to construct and temporarily operate sources associated with the truck transport of 130,000 tons of Clean Carbon Fuel (CCF) product per year from the Omnis Bailey, LLC, Omnis Bailey Refining Plant ("Omnis") to the existing rail loadout at the CONSOL Bailey Coal Preparation Plant ("Bailey"), a Title V facility in Richhill Township, Greene County. The proposed project will include the transfer of CCF from conveyor to truck; truck transport of CCF approximately 2.2 miles (one way) on primarily unpaved existing roads to a temporary open stockpile; front-end loader transfer of CCF from stockpile to hopper which will dump CCF product directly onto existing belt 859 at Bailey; belt transfer of the material to the existing RL-2 rail loadout belt; then transfer to the existing rail loadout. Potential to emit (PTE) for the proposed project will not exceed 24.9 tons of PM, 6.6 tons of PM10, and 1.0 tons of PM2.5, each, annually. Sources associated with the material handling project at both Bailey and Omnis, including truck dump operations, are subject to applicable requirements under 40 CFR Part 60 Subpart Y-Standards of Performance for Coal Preparation and Processing Plants. Best available technology (BAT) for the control of fugitive dust from plant roadways on the haul route will include periodic chipping, use of water sprays (water truck) and/or other dust suppressants on roadways, tarping of all trucks with posted notice of tarping requirements, and posting of signage indicating a speed limit of 15 miles per hour (mph). The existing elevated rail loadout at Bailey is currently equipped with telescopic chute(s), and as such, exceeds established Department BAT requirements for the proposed product throughput. CONSOL will be required to select appropriate stockpile fugitive emissions controls in its Subpart Y Fugitive Coal Dust Emissions Control Plan per 40 CFR 60.254(c), which must be submitted to the Department prior to commencing operation of an affected open storage pile. The proposed project is subject to and has been conditioned to ensure compliance with all applicable requirements specified in Title 25 of the Pa. Code and 40 CFR Part 60 and includes emissions restrictions, operational restrictions, testing, monitoring, recordkeeping, reporting, and work practice requirements. The project does not trigger the requirements of 40 CFR 52.21 related to Prevention of Significant Deterioration (PSD), or those of 25 Pa. Code Chapter 127 Subchapter E related to Nonattainment New Source Review (NSR). The plan approval application, the Department's Air Quality review memorandum, and the proposed Air Quality plan approval for the proposed project are available for review by any interested party at the Pennsylvania Department of Environmental Protection, Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. To schedule an appointment to review the Air Quality plan approval application or proposed Air Quality plan approval, or to receive an electronic copy of the Department's Air Quality review memorandum or the proposed Air Quality plan approval for the proposed project, a person may contact the Department's Southwest Regional Office File Review Coordinator at 412.442.4000. A person may oppose the proposed Air Quality plan approval by filing a written protest with the Department or may submit written comments through Devin P. Tomko, P.E., Air Quality Engineer, via the U.S. Postal Service to the Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222; via email to [dtomko@pa.gov](mailto:dtomko@pa.gov); or

via fax to 412.442.4194. Each protest and set of written comments must contain the name, address, and telephone number of the person submitting the protest or comments, identification of the proposed plan approval (PA-30-00072N) and a concise statement of the objections to plan approval issuance and the relevant facts upon which the objections are based. All comments must be received prior to the close of business 30 days after the date of this publication. A protest to the proposed action shall be filed with the Department within 30 days of the date that notice of the proposed action was published under 25 Pa Code 127.44 (relating to public notice). A public hearing may be held, if the Department, in its discretion, determines that such a hearing is warranted based on the information received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or by the Pennsylvania Bulletin, or by telephone, where the Department determines such notification is sufficient. Written requests for a public hearing should be directed to Edward F. Orris, P.E., New Source Review Chief, Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222, or via email to [eorris@pa.gov](mailto:eorris@pa.gov). 9-24,26,27
