## **Public Notices from**

### **Notices from the Pennsylvania Bulletin:**

Saturday, July 15, 2023 Volume 53 Number 28

## **Washington County Notices**

### **COAL & NONCOAL MINING ACTIVITY APPLICATIONS**

**Mining Permit No. 63091301. NPDES No. PA0236004. I Ridge, LLC**, 184 Schoolhouse Lane, Valley Grove, WV 26060, Donegal, West Finley and East Finley Townships, **Washington County**. To revise the permit and related NPDES permit to revise 1,735.68 previously permitted underground and subsidence control plan acres from development to longwall mining. Application received: April 28, 2023. Accepted: June 20, 2023.

### **LAND RECYCLING AND ENVIRONMENTAL REMEDIATION**

**CNX NV 110 Well Pad**, Primary Facility ID # **867748**, 1 Stone Road, Claysville, PA 15323, East Finley Township, **Washington County**. Penn Environmental & Remediation, 111 Ryan Court, Pittsburgh, PA 15205, on behalf of CNX Gas Company, LLC, 1000 Horizon Vue Energy Drive, Canonsburg, PA 15317, submitted a Final Report concerning remediation of soil contaminated with RCRA Metals. The Final Report is intended to document remediation of the site to meet the Statewide health standards.

### **EROSION AND SEDIMENT CONTROL**

ESCGP # 3 **ESG076323004-00**

Applicant Name **Markwest Liberty Midstream & Resources LLC**

Contact Person Brian Elliot

Address 4600 J Barry Ct, Ste 500

City, State, Zip Canonsburg, PA 15317

Township(s) Buffalo Township, Canton Township

County **Washington County** Receiving Stream(s) and Classification(s) UNT to Buffalo Creek (HQ—WWF); UNT to Chartiers Creek (WWF)

Application received: June 27, 2023

Issued: June 26, 2023

## **Greene County Notices**

### **LAND RECYCLING AND ENVIRONMENTAL REMEDIATION**

**Greylock Beacon Well Pad, Primary Facility ID # 852726**, 137 Blaker Ridge Road, Waynesburg, PA 15370, Greene Township, Greene County. Moody and Associates, Inc., 1720 Washington Road, Suite 100, Washington, PA 15301 on behalf of Greylock Production, LLC, 500 Corporate Landing, Charleston, WV 25311, submitted a Notice of Intent to Remediate. Soil and groundwater at the site were impacted by brine-related constituents associated with a release of produced fluid. The intended future use of the property will be residential and will maintain continued production of the well. The Notice of Intent to Remediate was published in *the Observer-Reporter* on June 14, 2023. Application received: June 30, 2023.

### **WATER OBSTRUCTIONS AND ENCROACHMENTS**

**E3007223-006. CNX Midstream Operating Company, LLC**, 1000 Horizon Vue Drive, Canonsburg, PA 15317, Morris Township, Greene County. U.S. Army Corps of Engineers Pittsburgh District. Application received: June 21, 2023. Latitude: 40.010166°, Longitude: -80.289138°.

This small project joint permit application proposes to expose approximately 380 LF of one existing 12" HDPE combination (fresh/produced) and two (2) existing 10" steel gas pipelines through Regulated Waters of the Commonwealth in preparation for longwall mining activities under these pipelines. Exposure of Pipeline exposure is anticipated to last approximately one (1) year and will result in temporary impacts to one (1) stream and two (2) associated stream floodways (UNTs to Bates Fork, a High-Quality Warm Waters Fishery). Total proposed earth disturbance for this project is 27.8 acres. Proposed project impacts include excavation to expose the existing pipelines, stockpiling of soils, installation of temporary flume pipe, installation of monitoring equipment, installation of erosion and sediment controls, and site restoration post-construction.

### **AIR QUALITY**

**GP5-30-00826A/AG5-30-00038A: EQM Gathering Opco, LLC**, 2200 Energy Drive, Canonsburg, PA 15317, Aleppo Township, Greene County. On June 27, 2023, GP5-30-00826A/AG5-30-00038A authorization issued to EQM Gathering Opco, LLC for operation and construction of sources which include: One (1) TEG dehydration unit, rated at 150 MMscfd and one (1) dehydrated at 110 MMscfd with associated flash tanks, each equipped with a thermal oxidizer and a reboiler, one (1) Produced Water storage tank rated at 8,820-gallon, one (1) TEG tank, truck loading operations, Venting and Blowdowns, Pigging Operations, fugitive emissions from component leaks, and two (2) Natural gas-fired electrical generators, each rated at 5.65 kW at SGL-179 Facility Station located in Aleppo Township, Greene County. Application received: June 12, 2023. Authorized: June 27, 2023.

## **ACTIONS ON COAL AND NONCOAL APPLICATIONS**

**Mining Permit No. 30161301. NPDES No. PA0236519.** Marshall County Coal Resources, Inc., 46226 National Road, St. Clairsville, OH 43950, Aleppo Township, **Greene County**. To revise the permit and related NPDES permit for installation of a degas borehole. Application received: November 21, 2022. Accepted: January 18, 2023. Issued: June 22, 2023.

## **CORRECTIVE ACTION UNDER ACT 32, 1989**

**Log Cabin Service, Storage Tank Facility ID # 30-09729**, 735 Golden Oaks Road, New Freeport, PA 15352, Freeport Township, Greene County. Letterle & Associates, Inc., 2859 Oxford Boulevard, Allison Park, PA 15101, on behalf of Coen Markets, Inc., 1000 Philadelphia Street, Canonsburg, PA 15314 submitted a Remedial Action Completion Report concerning remediation of groundwater contaminated with unleaded gasoline. The report residential demonstrated attainment of the Statewide health standards and was approved by DEP on June 30, 2023.

### **PUBLIC NOTICE**

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit No. 30121301 and related NPDES permit for the Harvey Mine.

The proposed revision adds approximately 20.8 acres of surface permit area for the construction of the 1N Bleeder Facility. The project is located in Center Township, Greene

County, Pennsylvania and is located on the Rogersville, PA U.S. Geological Survey 7.5 minute topographic map. The proposed permit area begins at an existing access road off of Boulder Road (T-485), approximately 0.2 miles northeast of the intersection of Boulder Road and Hopewell Ridge Road (T-565). It continues northeast along the access road for approximately 1580 feet at a width of 30 feet. It continues another 645 feet to the northeast, extending out along the road to the southeast approximately 1200 feet. The proposed permit revision includes construction of the airshaft, substation, ventilation air methane system, and boreholes. The proposed permit revision also includes access roads, a stockpile, cuttings pit, sediment pond, and other erosion and sedimentation control facilities.

The application includes a request for variance to encroach within 100 feet of the right-of-way of Boulder Road (T-485) beginning 0.2 miles northeast of its intersection with Hopewell Ridge Road (T-565) and continuing 290 feet to the northeast. The road variance is required for access to the site.

Stream variance requests are proposed for work within 100 feet of two unnamed tributaries to Browns Creek. A variance is requested for UNT 40540G-1 to Browns Creek, located at its headwaters, approximately 1690 feet north and 1970 feet east of the intersection of Boulder Road (T-485) and Hopewell Ridge Road (T-565) and continuing downstream to the southwest for 200 feet. Two sections of variance are requested for UNT 40540G to Browns Creek, the first located at its headwaters, approximately 2100 feet north and 1475 feet east of the intersection of Boulder Road and Hopewell Ridge Road and continuing downstream for approximately 345 feet, and the second beginning 500 feet downstream of the headwaters and continuing for approximately 150 feet downstream to the southeast. The variances are required for construction of the sediment pond, collection ditch, vegetated filter strip, sediment pond access road, access to the topsoil stockpile, and installation of erosion and sedimentation controls.

The proposed permit revision includes one new NPDES discharge point. The point is at the sediment pond emergency spillway outlet into an UNT to 40540G to Browns Creek located at 39o5522.1, 80o1702.6. Treated surface water runoff will be discharged at the new NPDES point.

Blasting may be conducted during site grading activities. Blasting will not occur until a plan has been approved by the PADEP. When a blasting schedule is finalized, residents, owners of dwellings or other structures, local governments and public utilities located within mile of the area where blasting will occur will be notified. All residents, owners of dwellings or other structures located within mile of the area where blasting will occur will be informed of their right to a pre-blast survey and how they may request such a survey.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

Bailey Mine

Public Notice

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, is making application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit (CMAP) No. 30841316 and related NPDES permit for the Bailey Mine.

The proposed revision adds 4418.26 acres of the underground permit area and subsidence control plan area for underground development mining only.

The proposed revision is in Aleppo Township, Greene County, and can be found on the New Freeport, PA U. S. Geological Survey 7.5 minute topographic maps and mapping provided in the permit application.

This area can be described as follows:

The revision to the permit area and subsidence control plan area for development mining begins at a point approximately 3000 feet northwest west of the intersection of Fairview Rd and Aleppo Rd then approximately 14500 feet southeast to a point approximately 2000 feet northeast of the intersection of Long Run Rd and Blacks Creek Rd. then approximately 9500 feet southeast to a point approximately 4000 feet west of Mason Rd and Bryant Ridge Rd. then approximately 1700 feet west to a point approximately 1500 feet southwest of Morford Rd and Jobes Rd. then approximately 9000 feet northeast to a point approximately 4000 feet northwest of Green Valley Rd and Riggle Rd. and then approximately 5000 feet northeast back to the point of origin.

A copy of the application is available for public inspection and copying for a fee, by appointment at the Department of Environmental Protection, California District Office, District Mining Operations, 25 Technology Drive, California Technology Park, Coal Center, Pennsylvania 15423. Telephone: 724-769-1100. A copy of this application is also available for public inspection at the Greene County Recorder of Deeds Office, Greene County Court House, East High Street, Waynesburg, Pennsylvania 15370.

Written comments, objections and requests for a public hearing or informal conference may be submitted to the Department of Environmental Protection, California District Office at the above address, within thirty (30) days from the date of the final publication of this Notice and must include the person's name, address, telephone number, and a brief statement as to the nature of his or her objection.

5-26,6-2,9,16

06.22

Harvey Mine

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the

Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 1000 CONSOL Energy Drive, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit (CMAP) No. 30121301 and related NPDES permit for the Harvey Mine.

The proposed revision adds approximately 23.7 acres of surface permit area for the installation of the 9 South 1 Powerline. The project is located in Morris Township and Center Township, Greene County, Pennsylvania and is located on the Rogersville, PA U.S. Geological Survey 7.5-minute topographic map. The proposed permit area begins at the proposed 9 South 1 Airshaft Facility, near the intersection of Hopewell Ridge Road (T-565) and Morris Run Road (T-416) and continues in a generally north/northeast direction for 1.3 miles. It will connect to the 7 North 1 Powerline, near the existing railroad off of McCollum Road (T-416). The permit width is 100 feet along the powerline. The proposed permit revision includes installation of a 1.3-mile-long overhead powerline, temporary access corridors, and erosion and sedimentation control facilities.

The application includes activities within 100 feet of the right-of-way of Patterson Creek Road (T-581) beginning approximately 0.4 miles west/northwest of its intersection with Morris Run Road (T-417) and continuing 355 feet northwest. The road variance is required for installation of the overhead powerline and temporary access off of the road.

Variances are proposed for the following four streams:

A variance is requested for work within 100 feet of UNT 40555 to Patterson Creek, beginning at a point approximately 955 feet north and 600 feet west of the intersection of Hopewell Ridge Road (T-565) and Morris Run Road (T-416) and continuing downstream for approximately 260 feet in a northerly direction.

A variance is requested for work within 100 feet of UNT 40555-a to Patterson Creek, beginning near its confluence with UNT 40555 - approximately 1245 feet north and 450 feet west of the intersection of Hopewell Ridge Road and Morris Run Road. It continues approximately 400 feet upstream to the west.

A 100 foot section of variance is requested for UNT 40554 to Patterson Creek, located along Patterson Creek Road (T-581) approximately 0.4 miles west/northwest of its intersection with Morris Run Road (T-417) and continuing upstream in a westerly direction.

A variance is requested along UNT 40554-R1 to Patterson Creek, beginning near its confluence with UNT 40554 - approximately 765 feet north and 1795 feet west of the intersection of Patterson Creek Road and Morris Run Road and continuing along the stream for 320 feet upstream, in a northeasterly direction. The stream variances are required for installation of the overhead powerline, tree cutting, power pole installation, temporary access for construction, and erosion and sedimentation controls.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

06.16

GINGER HILL

PUBLIC NOTICE

Pursuant to the PENNSYLVANIA CLEAN STREAMS LAW, the PENNSYLVANIA DEPARTMENT OF ENVIRONMENTAL PROTECTION Rules and Regulations, the SURFACE MINING CONSERVATION and

RECLAMATION ACT, and the COAL REFUSE DISPOSAL CONTROL ACT as amended, notice is hereby given that Washington County Land Resources, Inc. (WCLR) doing business at 46226 National Road, St. Clairsville, Oh 43950, has made application to the Pennsylvania Department of Environmental Protection proposing the addition of 13.3 surface permit acres at CMAP No. 63723707 and the related NPDES permit for the Ginger Hill Refuse Area 11 coal refuse disposal facility. The additional surface acres are for the construction of a pipeline to transport treated mine water to the Monongahela River for discharge. The receiving streams for the existing permit are Dry Run and an Unnamed Tributary of Pigeon Creek. The acreage of CMAP No. 63723707 is 254.0 and the permit was issued on 09/5/1986 and expires on 9/4/2026.

The subject coal refuse disposal site is located in Washington County, Carroll and Nottingham Townships, and is situated on an unnamed tributary of Pigeon Creek, approximately 3 miles west of the City of Monongahela, Pennsylvania. The coal refuse disposal site can be found on the Monongahela U.S.G.S. 7 1/2 minute topographic map, at a location 2,900' southeast from the intersection of SR-917 and Crackerjack Road (SR-1067). The proposed surface acres begin on the east side of the existing permit and extends 2.7 miles to the proposed NPDES discharge point 001 (Lat:40-12-53, Long:79-57-38) at the confluence of the Monongahela River and Mingo Creek. Additionally, this application proposes a land use change from forestland to unmanaged natural habitat along the path of the pipeline. The land use change will affect approximately 5.9 acres of the 13.3 acres proposed in this application.

A road variance is requested for Ridge Road (T-599) beginning at a point approximately 3,160 feet east of the intersection of Ridge Road (T-599) and Dry Run Road (SR-136) and continuing east approximately 30 feet. The activities include the installation of a pipeline crossing Ridge Road.

A road variance is requested for Dry Run Road (SR-136) beginning at a point approximately 2,600 feet east of the intersection of Ridge Road (T-599) and Dry Run Road (SR-136) and continuing east approximately 30 feet. The activities include the installation of a pipeline as well as a pipeline boring under Ridge Road.

A road variance is requested for Gearing Road (T-854) beginning at the intersection of Gearing Road (T-854) and Dry Run Road (SR-136) and continuing north approximately 1,470 feet. The activities include the installation of a pipeline.

A road variance is requested for SR 88 beginning at a point approximately 3,475 feet west of the intersection of SR 88 and SR 837 and continuing west approximately 30 feet. The activities include the installation of a pipeline as well as a pipeline boring under Ridge Road.

A road variance is requested for State Route 837 beginning at a point approximately 260 feet west of the intersection of SR-837 and Maderia Steet and continuing west approximately 130 feet. The activities include the installation of a pipeline as well as a pipeline boring under SR-837.

A stream variance is requested for Dry Run 39635: Beginning at the intersection of Dry Run Road and Gearing Road and continuing approximately 200 feet downstream. The activities include the installation of a pipeline as well as a pipeline boring under Dry Run. The total variance area is approximately 0.02 acres.

A stream variance is requested for Mingo Creek 39585 beginning at a point approximately 7,330 feet upstream of the intersection of Mingo Creek and the Monongahela River and continuing approximately 975 feet downstream. The activities include the installation of a pipeline within 100 feet of Mingo Creek. The total variance area is approximately 0.2 acres.

A stream variance is requested for Mingo Creek 39585 beginning at a point approximately 6,420 feet upstream of the intersection of Mingo Creek and the Monongahela River and continuing approximately

225 feet downstream. The activities include the installation of a pipeline as well as a pipeline boring under Mingo Creek. The total variance area is approximately 0.05 acres.

A stream variance is requested for Mingo Creek 39585 beginning at a point approximately 2,300 feet upstream of the intersection of Mingo Creek and the Monongahela River and continuing approximately 50 feet downstream. The activities include the installation of a pipeline within 100 feet of Mingo Creek. The total variance area is approximately 0.01 acres.

A stream variance is requested for Mingo Creek 39585 beginning at a point approximately 970 feet upstream of the intersection of Mingo Creek and the Monongahela River and continuing approximately 250 feet downstream. The activities include the installation of a pipeline within 100 feet of Mingo Creek. The total variance area is approximately 0.06 acres.

A stream variance is requested for Mingo Creek 39585 beginning at a point approximately 100 feet upstream of the intersection of Mingo Creek and the Monongahela River and continuing approximately 100 feet downstream. The activities include the installation of a pipeline within 100 feet of Mingo Creek. The total variance area is approximately 0.02 acres.

A stream variance is requested for Monongahela River 37185 beginning at the confluence of Mingo Creek and the Monongahela River and continuing approximately 100 feet downstream. The activities include the installation of a pipeline within 100 feet of Mingo Creek. The total variance area is approximately 0.2 acres.

A copy of the application is available for public inspection, and copying for a fee, by appointment at the Washington County Recorder of Deeds, 95 West Beau St Suite 520, Washington, PA 15301. Written comments, objections, or a request for an informal conference may be submitted to the PA Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423, no later than thirty (30) days following the final (4th) publication date of this notice.
