Steele Shaft
PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Surface Mining Conservation and Reclamation Act, the Bituminous Mine Subsidence and Land Conservation Act and Section 1917-A of the Administrative Code of 1929, as amended, as well as the rules and regulations promulgated thereunder, notice is hereby given that AMD Reclamation, Inc (AMDRI) and Dana Mining Company of PA, LLC, (Dana) have submitted an application to the Pennsylvania Department of Environmental Protection (Department) to terminate the Coal Mining Activity Permit (CMAP) No. 30141302 and related NPDES permit No. PA0235474 for the Steele Shaft Water Treatment Facility.

The Steele Shaft Water Treatment Facility is located in Dunkard, Monongahela and Perry Townships, Greene County, Pennsylvania and is located on the Garards Fort, PA, Masontown, PA, and Morgantown North, WV U.S. Geological Survey 7.5-minute topographic maps.

The existing treatment facility and appurtenances that maintain the Shannopin Mine pool will remain post permit termination and be operated by the Steele Shaft Trust. The requested bond release of \$583,830.00 and permit termination are being sought in conjunction with a Consent Order and Agreement between AMDRI, Dana and the Department dated October 6, 2014, as amended on February 25, 2015.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

Bailey Mine
PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit No. 30841316 and related NPDES permit for the Bailey Mine.

The proposed revision adds approximately 1.7 acres of surface permit area for grading at the entrance to the 6 South 3 Portal Facility in order to improve driver safety. The project is located in Aleppo Township, Greene County, Pennsylvania and is located on the New Freeport, PA U.S. Geological Survey 7.5 minute topographic map. The new permit is located near the intersection of SR 3018 (Behm Road) and SR 3001 (Aleppo Road), with one permit area located on the eastern side of SR 3001 (Aleppo Road) at the intersection, and a second permit area located on the north side of SR 3018, just to the east of the intersection.

The application includes a request for variance to encroach within 100 feet of the right-of-way of SR 3001 (Aleppo Road), beginning approximately 175 feet south of its intersection with SR 3018 (Behm Road) and continuing to the north for 400 feet. The application also includes a request for variance to encroach within 100 feet of the right-of-way of SR 3018 (Behm Road), beginning at its intersection with SR 3001 (Aleppo Road) and continuing to the east for approximately 700 feet. The road variance is required for site grading.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

Bailey Mine

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit No. 30841316 and related NPDES permit for the Bailey Mine.

The proposed revision adds approximately 8.3 acres of surface permit area for the installation of the 12L-1 and 12L-2 Degas Boreholes. The facilities will be located in Aleppo Township, Greene County, Pennsylvania and are located on the New Freeport, PA U.S. Geological Survey 7.5 minute topographic map. The permit area begins off of Whipkey Ridge Road (T-465) approximately 0.4 miles southeast of its intersection with Higbee Road (T-447). It continues to the southeast approximately 520 feet and then splits. One portion extends 810 feet to the north, varying in width between 125 and 205 feet for the 12L-2 borehole. The other portion continues 425 feet southeast, then 320 feet east, then 890 feet northeast, varying in width between 70 feet and 240 feet for the 12L-1 borehole. The proposed permit revision

includes construction of two degas boreholes, access roads, soil stockpiles, and erosion and sedimentation control facilities.

The application includes a request for variance to encroach within 100 feet of the right-of-way of Whipkey Ridge Road (T-465) beginning 0.4 miles southeast of its intersection with Higbee Road (T-447) and continuing 310 feet to the southeast. The road variance is required for site access.

Stream variance requests are proposed for work within 100 feet of UNT 32613C to Long Run starting at its headwaters, located at a point approximately 1745 feet east and 2165 feet south of the intersection of Whipkey Ridge Road (T-465)) and Higbee Road (T447) and continuing downstream for 475 feet in a northeasterly direction. The stream variance is required for borehole pad construction and erosion and sedimentation control facility installation.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

09.01

Pursuant to the "Surface Mining Conservation and Reclamation Act", the "Clean Streams Law", and applicable Title 25 Rules and Regulations of the Department of Environmental Protection (DEP), notice is hereby given that Twilight Industries, Division of USNR, LLC, PO Box 310, Woodland, WA 98674 has made application to DEP to renew an existing Surface Mining Permit No. 63170102 and a related NPDES Permit No. PA0278254.

The current Surface Mine Permit (No. 63170102) was issued on January 15, 2019 and will expire on January 14, 2024. The current NPDES Permit (No. PA0278254) was issued on February 1, 2019 and will expire on January 14, 2024. No revisions to the existing operation are proposed within this renewal.

The 43-acre permit site is situated in East Bethlehem Township, Washington County and is known as the Muscavitch Mine. The receiving streams from the permit area are unnamed tributaries to Ten Mile Creek within the Monongahela River basin. A variance was obtained to affect within 50 feet of unnamed tributary #1 beginning at the headwater and extending approximately 950 feet downstream for the now completed passive-type water treatment facilities. The mine is geographically located approximately 2 miles west of Fredericktown. To access the site from Clarksville, PA, take SR2041 north for 1.8 miles to the entrance on the east side of the road. The mine can be located on the Mather, PA 7.5 minute USGS topographic map.

A copy of this application is available for public inspection at both the Washington County Conservation District Office, 50 Old Hickory Ridge Road, Washington, PA 15301 and the DEP's New Stanton District Office. Written comments, objections, or requests for a public hearing or informal conference may be submitted to the DEP, New Stanton District Office, 131 Broadview Road, New Stanton, PA 15672, within 30 days from the date of the final publication of this notice and must include the person's name, address, telephone number, and a brief statement as to the nature of the comment or objection. The closing date for comments is October 2, 2023.

Harvey Mine

Public Notice

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, is making application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit (CMAP) No. 30121301 and related NPDES permit for the Harvey Mine.

The proposed revision changes 4219 acres of the underground permit area and subsidence control plan area from underground development mining to Longwall mining.

The proposed revision is in Morris and Center Townships, Greene County, and can be found on the Rogersville, PA U. S. Geological Survey 7.5-minute topographic maps and mapping provided in the permit application. This area can be described as follows:

The revision to the permit area and subsidence control plan area for development mining begins at a point approximately 3,500 feet Northwest of the intersection of Patterson Creek Road and Johnson Hill Road, then approximately 16,600 feet Southeast to a point approximately 2,100 feet Southeast of the intersection of Boulder Road and Browns Creek Road, then approximately 11,700 feet Southwest to a point approximately 3,600 feet Southeast of Lightner Run Road and Locust Hill Road, then approximately 16,700 feet Northwest to a point approximately 5,500 feet Southwest of Morris Run Road and Hopewell Ridge Road and then approximately 11,700 feet Northeast back to the point of origin.

The proposed revision requests approval to perform minor forms of stream restoration as may be necessary for streams located within the proposed revision area. In general, all streams within the following defined portion of the proposed subsidence control plan boundary where minor forms of stream restoration may be necessary: (within the previously described subsidence control plan boundary). Streams segments that may require restoration activities are located as follows:

Specifically, Scott Run at 1 location from a point approximately 4000 feet southwest of the intersection Hopewell Ridge Road and Scott Run Road to a point approximately. Approximately 273 feet of stream restoration length.

A copy of the application is available for public inspection and copying for a fee, by appointment at the Department of Environmental Protection, California District Office, District Mining Operations, 25 Technology Drive, California Technology Park, Coal Center, Pennsylvania 15423. Telephone: 724-769-1100. A copy of this application is also available for public inspection at the Greene County Recorder of Deeds Office, Greene County Court House, East High Street, Waynesburg, Pennsylvania 15370.

Written comments, objections and requests for a public hearing or informal conference may be submitted to the Department of Environmental Protection, California District Office at the above address, within thirty (30) days from the date of the final publication of this Notice and must include the person's name, address, telephone number, and a brief statement as to the nature of his or her objection.

09.23

Enlow Fork Mine

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the

Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit No. 30841317 and related NPDES permit for the Enlow Fork Mine.

The proposed revision adds approximately 8.5 acres of surface permit area for the installation of the G4 Panel Degas Boreholes. The facilities will be located in Morris Township, Washington County, Pennsylvania and are located on the Prosperity, PA U.S. Geological Survey 7.5 minute topographic map. The G4-1 Borehole permit area begins 0.3 miles southwest of the intersection of SR 18 (Prosperity Pike) and SR 3041 (Cash Day Road) and extends to the northwest for approximately 310 feet, then north for 735 feet, and northwest for 685 feet. It varies in width between 65 and 255 feet. The G4-2 Borehole permit is located at the intersection of SR 18 and SR 3041. It continues to the southwest along SR 18 for 465 feet and extends southeast from the road, varying in width between 80 and 120 feet. The G4-3 Borehole permit begins 0.6 miles southeast of the intersection of SR 3041 and SR 18 and extends to the northeast/north for 930 feet, varying in width between 75 and 160 feet. The proposed permit revision includes construction of three degas boreholes, access roads, soil stockpiles, and erosion and sedimentation control facilities.

The application includes a request for variance to encroach within 100 feet of the right-of-way of the following roads: two sections of SR 18 (Prosperity Pike) the first beginning at its intersection with SR 3041 (Cash Day Road) and continuing 465 feet to the southwest; and the second beginning 0.3 miles southwest of its intersection with SR 3041 and continuing 80 feet to the southwest; and two sections of SR 3041 the first beginning at its intersection with SR 18 and continuing 150 feet to the southeast; and the second beginning 0.6 miles southeast of its intersection with SR 18 and continuing 120 feet to the southeast. The road variances are required for access for the boreholes, borehole pad construction, topsoil stockpile placement, and erosion and sedimentation control facility installation.

Stream variance requests are proposed for work within 100 feet of six streams as follows: UNT 40912-L2 to Short Creek beginning at its culvert under SR 18 approximately 0.3 miles southwest of the intersection of SR 18 (Prosperity Pike) and SR 3041 (Cash Day Road) and continuing upstream 495 feet to the northwest; a 115 foot section of UNT 40912-L3 to Short Creek beginning at a point approximately 1490 feet west and 385 feet north of the intersection of SR 18 and SR 3041 and continuing upstream to the northwest; a 135 foot section of UNT 40912-L3b to Short Creek beginning at a point approximately 1485 feet west and 450 feet north of the intersection of SR 18 and SR 3041 and continuing upstream to the northwest; UNT 40925 to Lick Run beginning at its culvert under SR 3041 (Cash Day Road) approximately 0.5 miles southeast of the intersection of SR 3041 and Minton Run Road and continuing upstream 945 feet to the northeast; the entire 72 foot length of UNT 49025-R6 to Lick Run, located approximately 2080 feet east and 1400 feet south of the intersection of SR 3041 and Minton Run Road; and the entire 60 foot length of UNT 40925-R6a to Lick Run, located approximately 2050 feet east and 1370 feet south of the intersection of SR 3041 and Minton Run Road. The stream variances are required for access to the sites, access road installation, borehole pad construction, topsoil stockpile placement and installation of erosion and sedimentation control facilities.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.
