LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

CNX NV 36HS Well Site, Primary Facility ID # 869670, 900 Farmer Lane, Prosperity, PA 15239, South Franklin Township, Washington County. Penn Environmental & Remediation, 111 Ryan Court, Pittsburgh, PA 15205, on behalf of CNX Gas Company, LLC, 1000 Horizon Vue Energy Drive, Canonsburg, PA 15317, submitted a Final Report concerning remediation of soil contaminated with aluminum, barium, boron, iron, lithium, manganese, selenium, strontium, vanadium, and zinc. The Final Report is intended to document remediation of the site to meet the Statewide health standards.

AIR QUALITY

PA-63-00895A: Ensinger, Inc., 365 Meadowlands Blvd, Washington, PA 15301, North Strabane Township, Washington County. The Department issued a Plan Approval extension to Ensinger, Inc. for 180 days to perform stack testing on Integral Catalytic Oxidizer (C107) for NO_x, VOC, CO, HCHO, and acetaldehyde at its Ensinger Washington Facility located at 365 Meadowlands Boulevard in North Strabane, Washington County. Application received: September 28, 2023. Issued: October 16, 2023.

PA-63-001056A: Bloom Engineering Company, Inc., 100 Vista Drive, Charleroi, PA 15022, Fallowfield Township, Washington County. Effective October 28, 2023, to allow additional time for the continued construction of the Charleroi Facility. The new expiration date is April 28, 2024. Application received: September 26, 2023. Issued: October 13, 2023.

PA-63-01011: MarkWest Liberty Midstream & Resources, LLC, 4600 J Barry Court, Suite 500, Canonsburg, PA 15317, Smith Township, Washington County. For plan approval extension to

authorize continued temporary operation of air contamination sources and controls at the Harmon Creek Gas Plant. Application received: September 12, 2023. Effective: September 28, 2023.

WATER OBSTRUCTIONS AND ENCROACHMENTS

E6307223-002. Rice Drilling B, LLC, 400 Woodcliff Drive, Canonsburg, PA 15317, Somerset Township, Washington County. U.S. Army Corps of Engineers Pittsburgh District. Latitude: 40.14810°, Longitude: -80.02158°. Application received: May 2, 2023. Issued: October 17, 2023. Sub-Basin 19C (Middle Monongahela River), Quad Name: Hackett.

This project proposes to remediate a highwall adjacent to the Baby Bear Well Pad to a 2:1 slope and reinstall well pad drains at the well pad. The site consists of an access road, well pad and two wet ponds that treat stormwater runoff. Since the construction of the original Baby Bear Well Site a small palustrine emergent wetland (PEM), identified as Wetland 1, has developed on-site. Wetland 1 developed as a result of the construction of the Baby Bear well pad. Seeps from the adjacent highwall and a favorable geographic position at the toe of the highwall slope allow for water to pool at this location. Additionally, well pad drains that facilitate pad drainage have malfunctioned and no longer redirect flow away from the pad area, resulting in the development of Wetland 1. The remediation of the highwall and reestablishment of pad drains will result in the elimination of wetland 1. This permit will result in permanent fill of one (1) PEM wetland for a total of 0.197 acre of direct and permanent wetland impacts. The permanent impacts will be mitigated by the purchase of 0.20 acre of Wetland mitigation bank credits from the Laurel Hill Creek Mitigation Bank.

Bailey Mine

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit No. 30841316 and related NPDES permit for the Bailey Mine.

The proposed revision adds approximately 24.2 acres of surface permit area for the construction of the 6 South 4 Airshaft Facility. The project is located in Aleppo Township, Greene County, Pennsylvania and is located on the New Freeport, PA U.S. Geological Survey 7.5 minute topographic map. The proposed permit area begins along Fairview Road (T-445) approximately 0.7 miles northeast of its intersection with Mudlick Road (T-335). It continues following along the road for approximately 0.4 miles and extends off the eastern edge of the road, varying in width between approximately 300 and 1240 feet. The proposed permit revision includes construction of the airshaft, substation, and boreholes. The proposed

permit revision also includes an access road off Fairview Road, a topsoil stockpile, shaft material stockpile, sediment pond, and other erosion and sedimentation control facilities.

The application includes a request for variance to encroach within 100 feet of the right-of-way of Fairview Road (T445) beginning 0.7 miles northeast of its intersection with Mudlick Road (T-335) and continuing 1965 feet to the northeast. The road variance is required for access to the site, pad construction, haul road installation, shaft cuttings, and erosion and sedimentation control facilities. A stream variance request is proposed for work within 100 feet of 380 feet of UNT 32575 to South Fork Dunkard Fork beginning near its headwaters, located 4215 feet north and 3670 feet east of the intersection of Fairview Road (T-445) and Mudlick Road (T-335) and continuing downstream in a southeasterly direction. The variance is required for pond spillway installation and additional erosion and sedimentation controls.

The proposed permit revision includes two new NPDES discharge points. The first point is at the sediment pond principal spillway outlet into an UNT to South Fork Dunkard Fork - located at 39o49'56.4", 80o27'39.6". The second point is at the sediment trap spillway outlet into an UNT to South Fork Dunkard Fork - located at 39o49'46.6", 80o27'49.9". Treated surface water runoff will be discharged at the new NPDES points.

Blasting may be conducted during site activities. Blasting will not occur until a plan has been approved by the PADEP. When a blasting schedule is finalized, residents, owners of dwellings or other structures, local governments and public utilities located within 1/2 mile of the area where blasting will occur will be notified. All residents, owners of dwellings or other structures located within 1/2 mile of the area where blasting will occur will be informed of their right to a pre-blast survey and how they may request such a survey.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

Marshall County Mine PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Marshall County Coal Resources, Inc., 46226 National Road, St. Clairsville, OH 43950, is making application to the Pennsylvania Department of Environmental Protection for an amendment to the Marshall County Mine Coal Mining Activity Permit No. 30161301 and related NPDES permit. The proposed revision includes the addition of 2,315.10 acres to the underground permit area and the underground subsidence control plan area for underground development mining only. The proposed revision area is in Aleppo and Springhill Townships, Greene County, and can be found on portions of the Cameron, WV and New Freeport, PA U.S. Geological Survey 7.5 minute topographic maps as well as mapping provided in the permit application. This area can be described as follows: The permit and subsidence control plan revision area begins at a point 4,770 FT northwest of the intersection of Palmer RD and Quiet Dell RD, then 12,595 FT southeast to a point 1,920 FT northwest of the intersection of Morford RD and Jobes Run RD, then 7,815 FT southeast to a point 2,027 FT southeast to the intersection of Mt Carmel Ridge RD and Henry Hill RD, then 13,032 FT northwest to a point 2,000 FT southwest of the intersection of Palmer RD and Harts Run RD, then 7,715 FT north to the point of origin. All distances and headings are approximate. A copy of the application is available for public inspection and copying for a fee, by appointment at the Greene County Register & Recorder, 10 East High Street 1st Floor, Room 100, Waynesburg, PA 15370. A copy of this application is also available for public inspection at the Department of Environmental Protection, California District Office, District Mining Operations, 25 Technology Park, Coal Center, Pennsylvania 15423. Telephone: (724) 769-1100. Written comments, objections and requests for a public hearing or informal conference may be submitted to the

Department of Environmental Protection, California District Office at the above address, within thirty (30) days from the date of the final publication of this Notice and must include the persons name, address, telephone number, and a brief statement as to the nature of his or her objection.

Bailey Mine

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit No. 30841316 and related NPDES permit for the Bailey Mine.

The proposed revision adds approximately 1.7 acres of surface permit area for grading at the entrance to the 6 South 3 Portal Facility in order to improve driver safety. The project is located in Aleppo Township, Greene County, Pennsylvania and is located on the New Freeport, PA U.S. Geological Survey 7.5 minute topographic map. The new permit is located near the intersection of SR 3018 (Behm Road) and SR 3001 (Aleppo Road), with one permit area located on the eastern side of SR 3001 (Aleppo Road) at the intersection, and a second permit area located on the north side of SR 3018, just to the east of the intersection.

The application includes a request for variance to encroach within 100 feet of the right-of-way of SR 3001 (Aleppo Road), beginning approximately 175 feet south of its intersection with SR 3018 (Behm Road) and continuing to the north for 400 feet. The application also includes a request for variance to encroach within 100 feet of the right-of-way of SR 3018 (Behm Road), beginning at its intersection with SR 3001 (Aleppo Road) and continuing to the east for approximately 700 feet. The road variance is required for site grading.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

10.05

Steele Shaft

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Surface Mining Conservation and Reclamation Act, the Bituminous Mine Subsidence and Land Conservation Act and Section 1917-A of the Administrative Code of 1929, as amended, as well as the rules and regulations promulgated thereunder, notice is hereby given that AMD Reclamation, Inc (AMDRI) and Dana Mining Company of PA, LLC, (Dana) have submitted an application to the Pennsylvania Department of Environmental Protection (Department) to terminate the Coal Mining Activity Permit (CMAP) No. 30141302 and related NPDES permit No. PA0235474 for the Steele Shaft Water Treatment Facility.

The Steele Shaft Water Treatment Facility is located in Dunkard, Monongahela and Perry Townships, Greene County, Pennsylvania and is located on the Garards Fort, PA, Masontown, PA, and Morgantown North, WV U.S. Geological Survey 7.5-minute topographic maps.

The existing treatment facility and appurtenances that maintain the Shannopin Mine pool will remain post permit termination and be operated by the Steele Shaft Trust. The requested bond release of \$583,830.00 and permit termination are being sought in conjunction with a Consent Order and Agreement between AMDRI, Dana and the Department dated October 6, 2014, as amended on February 25, 2015.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.
