Washington County Notices

AIR QUALITY

65-00880, Washington Penn Plastics Co., P.O. Box 4543, Route 136, Eighty-Four, PA 15666, South Strabane Township, **Westmoreland County**. Application received: April 20, 2023. Washington Penn Plastics Co./Performance Production Division (P.O. Box 4543, Route 136, Eighty-Four, PA 15330) for the manufacturing of pelletized thermoplastics in South Strabane Township, Washington County. In accordance with 25 Pa. Code §§ 127.424 and 127.425 the Department of Environmental Protection (DEP) has received an application and intends to issue an Air Quality Operating Permit for the previously mentioned facility. The subject facility consists of four extrusion twin screw lines, three blenders, 2 storage silos for raw and finished material, an emergency generator rated 158 bhp, a cooling tower and a parts washer. There are several dust collectors to control particulate emissions. The facility-wide estimated potential emissions are: 0.28 tpy NO_x, 0.36 tpy CO, 0.002 tpy SO_x, 0.07 tpy VOC, and 15.43 tpy PM₁₀. The proposed SOOP contains emission restriction, testing, monitoring, recordkeeping, reporting and work practice standards derived from the applicable requirements of 25 Pa. Code Article III, Chapters 121—145, and 40 CFR Part 63 Subpart ZZZZ—National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines. A person may oppose the proposed State Only Operating Permit by filing a written protest with the Department through Noor Nahar via mail to Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222. Each protest or set of written comments must contain the name, address and telephone number of the person submitting the comments, identification of the proposed State Only Operating Permit (04-00880) and a concise statement of the objections to the Operating Permit issuance and the relevant facts upon which the objections are based. The application, DEP's Review Memorandum, and the proposed permit are available for public review during normal business hours at DEP's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222. A file review can be scheduled through the DEP's website at: <https://www.dep.pa.gov/Citizens/PublicRecords/Pages/Informal-File-Review.aspx> or by contacting Tom Joseph, Facilities Permitting Chief, directly. All comments must be received prior to the close of business 30 days after the date of this publication.

PA-30-00072I: Consol Pennsylvania Coal Company, LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, East Finley Township, **Washington County**. For plan approval extension to authorize continued temporary operation of sources and controls associated with the Enlow Fork Overland Conveyor. Application received: October 20, 2023. Effective: November 28, 2023.

PA-63-00936F: MarkWest Liberty Midstream & Resources, LLC, 4600 J Barry Court, Suite 500, Canonsburg, PA 15317, Chartiers Township, **Washington County**. For plan approval extension to authorize continued temporary operation of air contamination sources and controls at the Houston Gas Plant. Application received: October 10, 2023. Effective: November 28, 2023.

WATER OBSTRUCTIONS AND ENCROACHMENTS

E6307223-009. CNX Midstream Operating Company, LLC, 1000 Horizon Vue Drive, Canonsburg, PA 15317, Morris Township, **Washington County**. U.S. Army Corps of Engineers Pittsburgh District. Application received: November 6, 2023. Latitude: 40.008420°, Longitude: -80.314344°.

Sub-Basin 19B (Tenmile Creek), Quad Name: Prosperity.

The project proposes to expose approximately 2,930 L.F. of existing Morris to Nineveh Jumper Pipeline, consisting of two (2) 10-inch steel gas pipelines and one (1) 12-inch HDPE fresh/produced water line, in preparation for longwall mining activities under these pipelines. Pipeline exposure is anticipated to last approximately one (1) year and will result in temporary impacts to two (2) Palustrine Emergent (PEM) wetlands and one (1) intermittent stream (Lick Run, a Trout Stocked Fishery) and associated 50-foot assumed floodway. Proposed project impacts include excavation of the existing pipelines, installation of monitoring equipment, stockpiling of soils, installation of temporary flume pipes and riprap aprons, installation of timber mat bridges over streams and wetlands for equipment crossing, and site restoration post-construction. Impact data found [here](#).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Metalworking Machinery, Primary Facility ID # 625126, 1 Wheeling Pitt Drive, Allenport, PA 15412, Allenport Borough, Washington County. KU Resources, Inc., 22 South Linden Street, Duquesne, PA 15110, on behalf of Mon River Industrial Group, LLC, P.O. Box 249, Allenport, PA 15412, submitted a Final Report concerning remediation of soil and groundwater contaminated with 1,1,1-trichloroethane, 1,1-dichloroethane, 1,1-dichloroethene, 2-butanone, 4-methyl-2-pentanone, acetone, benzene, carbon disulfide, chloromethane, ethylbenzene, isopropylbenzene, tetrachloroethene, trichloroethene, 1-methylnaphthalene, 2-methylnaphthalene, acenaphthene, anthracene, benzo(a)anthracene, benzo(a)pyrene, benzo(b)fluoranthene, benzo(k)fluoranthene, chrysene, fluoranthene, naphthalene, phenanthrene, pyrene, arsenic, barium, cadmium, chromium (CRIII), chromium (CRVI), copper, iron, lead, mercury, nickel, selenium, silver, zinc for soil; acetone, benzene, carbon disulfide, chlorobenzene, 1,1-dichloroethane, 1,1-dichloroethene, cis-1,2-dichloroethene, ethylbenzene, isopropylbenzene, tetrachloroethene, 1,1,1-trichloroethane, toluene, trichloroethene, 1,2,4-trimethyl-benzene, 1,3,5-trimethylbenzene, xylenes, bis(2-ethyl-hexyl)phthalate, fluorene, naphthalene, phenol, pcb-1260, aluminum, arsenic, barium, boron, cadmium, chromium, lead, cobalt, copper, iron, lead, manganese, nickel, silver, zinc for groundwater. The Final Report demonstrated the attainment of the Statewide health and site-specific standards. Approved: November 14, 2023.

DETERMINATION OF APPLICABILITY FOR RESIDUAL WASTE GENERAL PERMITS

WMGR123SW066. Range Resources—Appalachia, LLC, 3000 Town Center Blvd, Canonsburg, PA 15317, Mount Pleasant Township, **Washington County**. A Determination of Applicability for operation under Residual Waste General Permit No. WMGR123 for the processing and beneficial use of oil and gas liquid waste at the Yonker George Tank Pad Reuse Water Storage Facility for use as a water supply to develop or hydraulically fracture an oil or gas well was issued by the Southwest Regional Office. Application received: May 1, 2023. Permit issued: November 8, 2023.

Persons interested in reviewing the permit may contact Waste Management Program Manager, 412-442-4000, Southwest Region, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, 412-442-4000. TDD users may contact DEP through the Pennsylvania Hamilton Relay Service, 800-654-5984.

WATER OBSTRUCTIONS AND ENCROACHMENTS

E6507223-009. CNX Gas Company, LLC, 1000 Horizon Vue Drive, Canonsburg, PA 15317, North Franklin Township, **Washington County**. U.S. Army Corps of Engineers Pittsburgh District. Latitude: 40.144500°, Longitude: -80.263100°. Application received: May 11, 2023. Issued: October 30, 2023.

The applicant will construct, operate, and maintain a 7' x 10.78" cylinder floating intake and 200 LF of 8" polyethylene line (flexible hose) in North Franklin Township, Washington County. The intakes will be placed directly within Washington Reservoir No. 3. The project will result in 0.005 acre of permanent direct impact to Waters of the Commonwealth as follows:

<i>Resource</i>	<i>Location (Latitude, Longitude)</i>	<i>Resource Type</i>	<i>Activity Type</i>	<i>Permanent Direct (acres)</i>
Washington Reservoir No. 3	40.144500, -80.263100	HQ—WWF	Water Withdrawal Intake	0.001
Washington Reservoir No. 3	HQ—WWF	Flexible Hose Installation

Letterle & Associates, Inc., 2859 Oxford Boulevard, Allison Park, PA 15101, on behalf of NILU Enterprises, Inc., 1 Ukani Drive, Belle Vernon, PA 15012, submitted a Remedial Action Plan concerning remediation of soil contaminated with unleaded gasoline and diesel fuel. The plan is intended to document the remedial actions for meeting nonresidential site-specific standards.

Greene County Notices

MINING ACTIVITY NPDES DRAFT PERMITS

NPDES No. PA0213535. Mining Permit No. 30841316. Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, Center Township, Greene County. Application received: January 6, 2023. Accepted: February 23, 2023.

A revision to the permit and related NPDES permit to add outfall 037 at sediment pond emergency spillway, affecting 1,898.81 surface acres and 43,046.44 underground acres. Receiving stream(s): Claylick Run (40703), classified for the following use: HQ-WWF. Monongahela River Watershed TMDL.

Unless otherwise noted, the proposed effluent limits for all outfalls in this permit are the BAT limits described previously for coal mining activities.

The proposed effluent limits for Outfall 037 discharging to Claylick Run are:

The following effluent limitations and monitoring requirements apply to the subject outfall from Permit Effective Date to Permit Expiration Date:

Parameter		<i>Minimum</i>	<i>30-Day</i>	<i>Daily</i>	<i>Instant.</i>

Notices from The Observer-Reporter:

12.05

Harvey Mine
PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit No. 30121301 and related NPDES permit for the Harvey Mine.

The proposed revision adds approximately 10.3 acres of surface permit area for the installation of the 2B Panel Degass Boreholes. The facilities will be located in Morris Township, Greene County, Pennsylvania and are located on the Rogersville PA U.S. Geological Survey 7.5 minute topographic map. The 2B-1 Borehole permit area is off of the existing access road off of Hopkins Run Road (T-478), which is located approximately 400 feet south of the intersection of Hopkins Run Road and Simpson Chapel Road (T-618). The permit begins approximately 0.5 miles southeast from the road entrance, then follows an existing driveway 2630 feet south where it intersects the 5B Powerline. It then continues to the south 450 feet. It varies in width from 40 feet to 240 feet. The 2B-2 Borehole permit area begins along the eastern side of Ross School Road (T-617), approximately one mile north of its intersection with SR 18. It continues to the north approximately 375 feet, varying in width between 55 and 190 feet. The 2B-3 Borehole permit area is located off of the existing EQT F Iams Well Pad access road, approximately 0.8 miles south/southwest from its intersection with Hopkins Run Road. It extends to the south/southwest along the field line for approximately 1900 feet, then turns 360 feet southeast, and then 500 feet northeast. It varies in width between 45 and 210 feet. The proposed permit revision includes construction of three degass boreholes, access roads, soil stockpiles, and erosion and sedimentation control facilities.

The application includes a request for variance to encroach within 100 feet of the right-of-way of Ross School Road (T-617), beginning approximately 1.0 miles north of its intersection with SR 18 (Browns Creek Road) and continuing approximately 375 feet to the north. The variance is required for an access road, borehole pad construction, borehole installation, a soil stockpile, and erosion and sedimentation control facilities.

Stream variance requests are proposed for work within 100 feet of five unnamed tributaries to Browns Creek: at the headwaters of UNT 40539-L7b located approximately 5340 feet north and 1595 feet east of the intersection of Hopkins Run Road (T-478) and SR 18 and continuing downstream to the west for 15 feet; UNT 40542 beginning approximately one mile north along Ross School Road (T-617) from its intersection with SR 18 and continuing 390 feet upstream to the north; UNT 40542-R5 located approximately one mile north along Ross School Road from its intersection with SR 18 and extending east its entire 75 foot length downstream of the

culvert under Ross School Road; 125 feet of UNT 40542-R5a located west of the culvert under Ross School Road approximately one mile north from its intersection with SR 18; a 75 foot section of UNT 40545-S03, located at its headwaters, 1630 feet south and 4365 feet west of the intersection of Hopkins Run Road and Ross School Road. The stream variances are required for access to the sites, borehole pad grading, borehole installation, a topsoil stockpile, and erosion and sedimentation control facility installation.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

Harvey Mine

Public Notice

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, is making application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit (CMAP) No. 30121301 and related NPDES permit for the Harvey Mine.

The proposed revision changes 4900 acres of the underground permit area and subsidence control plan area from underground Development mining to Longwall mining and to add 53.16 acres to the underground and subsidence control boundary for development and longwall mining.

The proposed revision is in Morris, Gray, Richhill and Center Townships, Greene County, and can be found on the Rogersville, PA U. S. Geological Survey 7.5-minute topographic maps and mapping provided in the permit application. This area can be described as follows:

The revision to the permit area and subsidence control plan area for development mining begins at a point approximately 2,250 feet Southwest of the intersection of Valley Chapel Road and Martin Road, then approximately 13,500 feet Southwest to a point approximately 1,500 feet East of the intersection of Sawmill Road (SR 4005) and W Roy Furman Hwy (SR 0021), then approximately 17,500 feet Southeast to a point approximately 5,100 feet Northwest of Harvey Hill Road and Miranda Run Road, then approximately 13,500 feet Northeast to a point approximately 3,450 feet Northwest of Johnson Hill Road and Patterson Creek Ridge Road and then approximately 15,900 feet Northwest back to the point of origin.

The proposed revision requests approval to perform minor forms of stream restoration as may be necessary for streams located within the proposed revision area. In general, all streams within the following defined portion of the proposed subsidence control plan boundary where minor forms of stream restoration may be necessary: (within the previously described subsidence control plan boundary). Streams segments that may require restoration activities are located as follows:

Specifically, Grays Fork at 1 location from a point approximately 1900 feet southeast of the intersection at SR 21 and Harvey Hill Rd (TR400). Approximately 1134 feet of stream restoration length.

A copy of the application is available for public inspection and copying for a fee, by appointment at the Department of Environmental Protection, California District Office, District Mining Operations, 25 Technology Drive, California Technology Park, Coal Center, Pennsylvania 15423. Telephone: 724-769-1100. A copy of this application is also available for public inspection at the Greene County Recorder of Deeds Office, Greene County Court House, East High Street, Waynesburg, Pennsylvania 15370.

Written comments, objections and requests for a public hearing or informal conference may be submitted to the Department of Environmental Protection, California District Office at the above address, within thirty (30) days from the date of the final publication of this Notice and must include the person's name, address, telephone number, and a brief statement as to the nature of his or her objection.

Notice of Intent

NOTICE

Pursuant to the Land Recycling and Environmental Remediation Standards Act, the act of May 19, 1995, P.L. 4, No. 1995-2., notice is hereby given that Rice Drilling B, LLC has submitted to the Pennsylvania Department of Environmental Protection a Notice of Intent to Remediate a site located at 136 Amos Road, North Bethlehem Township, Washington County. This Notice of Intent to Remediate states that the site is a gas well pad. The site has been found to be impacted by brine-related constituents which are suspected to have impacted soil on the site. Rice Drilling B, LLC has indicated that the proposed remediation measures will include source removal. The anticipated future use of the property will be agricultural.

11-16
