Washington County Notices

Individual NPDES Permit Applications for Discharges of Stormwater Associated with Construction Activity.

- Applicant: **First Energy Corp**

Applicant Address: 76 South Main St, Akron, OH 44308

Application Number: **PA630010D**

Application Type: New

Municipality/County: **Buffalo Township, Washington County**

Project Site Name: Dutch Fork 138kV Interconnect Project

Total Earth Disturbance Area (acres): 26.2 acres

Surface Waters Receiving Stormwater Discharges: UNT to Buffalo Creek (HQ-WWF)

Proposed Effluent Limitations: The draft permit requires implementation of an Erosion and Sediment Control (E&S) Plan and a Post-Construction Stormwater Management (PCSM) Plan and compliance with Federal technology-based effluent standards at 40 CFR Part 450.

Rate or Frequency of Discharge: Stormwater discharges during and following earth disturbance activities are precipitation-induced and will vary depending on factors such as

the area of impervious surfaces, the size and placement of best management practices (BMPs) and the intensity of precipitation.

Project Description: The project will involve **constructing a new overhead electric utility line from the existing Dutch Fork-Washington 138kV line to the newly constructed MPLX natural gas compressor facility at Timber Lake Rd (T-488)**. A temporary gravel laydown area located off Sunset Beach Rd (SR 3009) is also proposed for this project.

Special Conditions: 1. This permit does not authorize any obstructions or encroachments to any regulated watercourse or floodway. All permitting required for impacts to regulated watercourses or their floodway are subject to 25 Pa. Code Chapter 105. Appropriate authorization for impacts which require permitting under Chapter 105 must be obtained prior to beginning earth disturbance.

You may review the permit application file by contacting DEP's File Review Coordinator at 412-442-4286.

SAFE DRINKING WATER

- **Application No. 0224521**, Construction, Public Water Supply.

Applicant	Pennsylvania American Water Company
Address	852 Wesley Drive Mechanicsburg, PA 17055
Municipality	Union Township
County	Washington County
Responsible Official	Bruce Aiton 852 Wesley Drive Mechanicsburg, PA 17055
Consulting Engineer	Whitman, Requardt & Associates, LLP 2009 MacKenzie Way # 240 Cranberry Township, PA 16066
Application Received	April 9, 2024
Description	This project involves proposed improvements at Pennsylvania American Water Company (PAWC) E.H. Aldrich Water Treatment Plant—the Chemical System Improvements Project. Improvements will be made to the zinc orthophosphate, fluorosilicic acid, ferric chloride, caustic soda, and nonionic polymer systems. Meter pumps, associated piping and valves, storage tanks with level sensors are being replaced. In addition, the installation of a 60-gallon hot water heater is proposed and a water softening system for the caustic soda chase water. The project includes the removal of one emergency shower/eye wash and the installation of two

new emergency shower/eye wash stations at the facility. This includes the installation of a 120-gallon hot water heater with tempering valve and flow switch alarms that go to SCADA. Tempered water will also be supplied to an emergency shower/eye wash station at the truck unloading station.

E6307223-009. CNX Midstream Operating Company, LLC, 1000 Horizon Vue Drive, Canonsburg, PA 15317, **Morris Township, Washington County**. U.S. Army Corps of Engineers Pittsburgh District. Latitude: 40.008420°, Longitude: -80.314344°. Application received: November 6, 2023. Issued: April 9, 2024. The project proposes to **expose approximately 2,930 L.F. of existing Morris to Nineveh Jumper Pipeline, consisting of two (2) 10-inch steel gas pipelines and one (1) 12-inch HDPE fresh/produced water line, in preparation for longwall mining activities under these pipelines. Pipeline exposure is anticipated to last approximately one (1) year and will result in temporary impacts to two (2) Palustrine Emergent (PEM) wetlands and one (1) intermittent stream (Lick Run, a Trout Stocked Fishery) and associated 50-foot assumed floodway.** Proposed project impacts include excavation of the existing pipelines, installation of monitoring equipment, stockpiling of soils, installation of temporary flume pipes and riprap aprons, installation of timber mat bridges over streams and wetlands for equipment crossing, and site restoration post-construction.

Notices from The Observer-Reporter:

Washington, Greene County, Pennsylvania

Bailey Mine 4-5,12,19,26

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit No. 30841316 and related NPDES permit for the Bailey Mine.

The proposed revision adds approximately 10.2 acres of surface permit area for the installation of the 13L-1 and 13L-2 Degas Boreholes. The facilities will be located in Aleppo Township, Greene County, Pennsylvania and are located on the New Freeport, PA U.S. Geological Survey 7.5 minute topographic map. The 13L-1 permit area begins off of Whipkey Ridge Road (T-465) approximately 0.7 miles south of its intersection with Higbee Road (T447). It extends to the west approximately 1470 feet and varies in width between 120 and 310 feet. The 13L-2 permit area begins off of Whipkey Ridge Road approximately 1.0 mile south of its intersection with Higbee Road. It extends 450 feet east and then 480 feet north, varying in width between 125 feet and 340 feet. The proposed permit revision includes construction of two degas boreholes, access roads, soil stockpiles, and erosion and sedimentation control facilities.

The application includes a request for variance to encroach within 100 feet of the right-of-way of Whipkey Ridge Road (T-465) at two locations. The first begins 0.7 miles south of its intersection with Higbee Road (T-447) and continues 120 feet to the southwest, and the second begins 0.9 miles south of its intersection with Higbee Road and continues 460 feet to the south. The road variances are required for site access and erosion and sedimentation controls for the borehole facilities.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100). Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

Washington, Greene County, Pennsylvania

Bailey Mine 3-21,28,4-4,11

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit (CMAP) No. 30841316 and related NPDES permit for the Bailey Mine.

The proposed revision adds approximately 18.8 acres of surface permit area for the installation of the 6 South 4 Powerline. The project is located in Aleppo Township, Greene County, Pennsylvania and is located on the New Freeport, PA U.S. Geological Survey 7.5-minute topographic map. The proposed permit area begins at the proposed 6 South 4 Airshaft Facility, off of Fairview Road (T-445) and continues in a generally northerly direction for 1.4 miles. It will connect to the 15I Powerline, slightly west of the intersection of SR 3001 (Aleppo

Road) and Riggs Road (T-336). The permit width varies between 100 feet and 280 feet along the powerline. The proposed permit revision includes installation of a 1.4-mile-long overhead powerline, temporary access, and erosion and sedimentation control facilities.

The application includes activities within 100 feet of the right-of-way of Fairview Road (T-445) beginning approximately 1.1 miles northeast of its intersection with Mudlick Road (T-335) and continuing 525 feet to the northeast. The road variance is required for installation of the overhead powerline, power poles, and temporary access off of the road.

Variations are proposed for the following three streams: A 100 foot section of variance is requested for work within 100 feet of UNT 32567 to South Fork Dunkard Fork, beginning at a point approximately 1565 feet west and 1005 feet north of the intersection of SR 3001 (Aleppo Road) and SR 3018 (Behm Road) and continuing upstream in a southwesterly direction; UNT 32536N to South Fork, beginning approximately 1250 feet west and 520 feet south of the intersection of SR 3001 and SR 3018 and continuing upstream approximately 295 feet in a westerly direction; and tributary S-01 to UNT 32574 to South Fork, beginning approximately 1700 feet west and 3070 feet south of the intersection of SR 3001 and SR 3018 and continuing upstream approximately 240 feet in a westerly direction. The stream variations are required for installation of the overhead powerline, tree cutting, temporary access for construction, and erosion and sedimentation controls.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

Legal Notice

Washington, Greene County, Pennsylvania

Harvey Mine

PUBLIC NOTICE 4-2,9,16,23

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit (CMAP) No. 30121301 and related NPDES permit for the Harvey Mine.

The proposed revision adds approximately 12.7 acres of surface permit area for the installation of the 1N Powerline. The project is located in Morris Township and Center Township, Greene County, Pennsylvania and is located on the Rogersville, PA U.S. Geological Survey 7.5-minute topographic map. The proposed permit area begins at the existing 5B Powerline, approximately 0.2 miles northwest of the intersection of Boulder Road (T-456) and SR 18 and continues in a generally southwest direction for 1.0 mile. It will connect to the propose 1N Bleeder Facility, located off of Boulder Road. The permit width is 100 feet along the powerline. The proposed permit revision includes installation of a 1.0-mile-long overhead powerline, access roads, and erosion and sedimentation control facilities.

The application includes activities within 100 feet of the right-of-way of Boulder Road (T-456) in two locations - the first beginning approximately 750 feet west of its intersection with SR 18 and continuing 100 feet west, and the second beginning 0.6 miles southwest of its intersection with SR 18 and continuing 215 feet southwest. The road variance is required for installation of the overhead powerline and access off of the road. Variations are proposed for the following two streams: a variance is requested for work within 100 feet of UNT 40543 to Browns Creek, beginning at a point approximately 165 feet north and 650 feet west of the intersection of Boulder Road (T-456) and SR 18 and continuing upstream for approximately 140 feet in a

westerly direction; and a variance is requested for work within 100 feet of UNT 40543-R3 to Browns Creek, located at its headwaters - approximately 95 feet north and 695 feet west of the intersection of Boulder Road and SR 18. It continues approximately 50 feet downstream to the east. The stream variances are required for installation of the overhead powerline, tree cutting, and erosion and sedimentation controls.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100). Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

ENLOW FORK

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317, has submitted an application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit No. 30841317 and related NPDES permit for the Enlow Fork Mine.

The proposed revision adds approximately 17.1 acres of surface permit area for the installation of the H7 Bleeder Facility. The project is located in Washington Township, Greene County, Pennsylvania and is located on the Waynesburg, PA US Geological Survey 7.5 minute topographic map. The proposed permit area begins at an existing driveway off of SR 4031 (Dillie Road). It continues along the existing driveway approximately 870 feet to the northwest, extending to the northeast of the driveway at a width varying between 210 and 765 feet. The permit continues to the north for approximately 930 feet and then northwest/west for 400 feet at a width of approximately 80 feet. It then continues southwest for 325 feet and extends to the south at a width of approximately 350 feet. The proposed permit revision includes construction of the airshaft, substation, and boreholes. The proposed permit revision also includes access roads, a stockpile, cuttings pit, sediment trap, and other erosion and sedimentation control facilities.

The application includes a request for variance to encroach within 100 feet of the right-of-way of SR 4031 (Dillie Road) beginning 0.6 miles southwest of its intersection with Pettit Road (T-409) and continuing approximately 270 feet to the southwest. The road variance is required for access to the site utilizing an existing driveway, access road construction, and erosion and sedimentation control facilities.

Stream variance requests are proposed for work within 100 feet of two streams as follows: Dille Run (40516) for 160 feet downstream and 200 feet upstream on either side of the culvert under SR 4031 (Dillie Road), which is approximately 0.6 miles southwest of the intersection of SR 4031 with Pettit Road; and a variance along 930 feet of UNT 40519 to Dille Run from its culvert under SR 4031 and continuing upstream along the existing driveway. The variances are required for access to the site, construction of the sediment trap, collection ditches, level spreader, cuttings pit fill outslopes, and installation of erosion and sedimentation controls.

Blasting may be conducted during site activities. Blasting will not occur until a plan has been approved by the PADEP. When a blasting schedule is finalized, residents, owners of dwellings or other structures, local governments and public utilities located within 1/2 mile of the area where blasting will occur will be notified. All residents, owners of dwellings or other structures located within 1/2 mile of the area where blasting will occur will be informed of their right to a pre-blast survey and how they may request such a survey.

The project includes work within the 125-foot barrier of abandoned Gas Well No. 3071 located at 39o 58' 36.0", 80o 14' 16.5". The owner of Well 3071 is unknown.

Copies of the application are available for public inspection, and copying for a fee, by appointment at the Pennsylvania Department of Environmental Protection, California District Mining Office, 25 Technology Drive, California Technology Park, Coal Center, PA 15423 (telephone number: 724-769-1100).

Written comments, objections, or a request for an informal conference may be submitted to the Department of Environmental Protection, District Mining Operations, at the above address, no later than thirty (30) days following the final publication date of this notice.

Washington County, Pennsylvania

Enlow Fork Mine 3-26,4-2,9,26

PUBLIC NOTICE

Pursuant to the Pennsylvania Clean Streams Law, the Pennsylvania Department of Environmental Protection Rules and Regulations, the Surface Mining Conservation and Reclamation Act, and the Bituminous Mine Subsidence and Land Conservation Act as amended, notice is hereby given that Consol Pennsylvania Coal Company LLC, 275 Technology Drive, Suite 101, Canonsburg, PA 15317 is making application to the Pennsylvania Department of Environmental Protection to revise Coal Mining Activity Permit (CMAP) No. 30841317 and related NPDES permit for the Enlow Fork Mine.

The proposed revision is for the addition of 3,409 acres to the Enlow Fork Mine underground permit area and underground subsidence control plan area from development mining to longwall mining.

The proposed revision is in Morris Townships, Greene and Washington Counties and can be found on the Rogersville and Prosperity, PA U. S. Geological Survey 7.5 minute topographic map and mapping provided in the permit application.

The revision to the permit area and subsidence control plan area for longwall mining begins at a point approximately 1,600 feet northwest of the intersection of T-398 and SR 18 then approximately 9,000 feet northeast to a point approximately 800 feet northeast of the intersection of S.R. 18 and T-315 then approximately 16,400 feet southeast to a point approximately 1,900 feet southwest of the intersection of T-645 and T-460 then approximately 8,600 feet southwest to a point approximately 400 feet southwest of the intersection of T-629 and SR-4023 then approximately 16,400 feet northwest to the point of origin.

A copy of the application is available for public inspection and copying for a fee, by appointment at the Department of Environmental Protection, California District Office, District Mining Operations, 25 Technology Drive, California Technology Park, Coal Center, Pennsylvania 15423. Telephone: 724-769-1100. A copy of this application is also available for public inspection at the Greene County Recorder of Deeds Office, Greene County Court House, East High Street, Waynesburg, Pennsylvania 15370, and the Washington County Recorder of Deeds, 100 West Beau Street, Room 204, Washington, PA 15301.

Written comments, objections and requests for a public hearing or informal conference may be submitted to the Department of Environmental Protection, California District Office at the above address, within thirty (30) days from the date of the final publication of this Notice and must include the person's name, address, telephone number, and a brief statement as to the nature of his or her objection.

Notice of Intent

NOTICE

Pursuant to the Land Recycling and Environmental Remediation Standards Act, the act of May 19, 1995, P.L. 4, No. 1995-2., notice is hereby given that EQT Corporation has submitted to the Pennsylvania Department of Environmental Protection a Notice of Intent to Remediate a site located at 454 Martin Hill Road, Springhill Township, Greene County. This Notice of Intent to Remediate states that the site is a gas well pad. The site was found to be impacted by inorganic constituents which are suspected to have impacted soil on the site. There was no off-site impact. EQT Corporation has indicated that the remediation measures include source removal. The anticipated future use of the property will be residential and will maintain continued production of the well.

Permit Renewal

PUBLIC NOTICE

Commonwealth of Pennsylvania Department of Environmental Protection Notice of Intent to Issue Air Quality Title V Operating Permit Renewal Arden Landfill, Inc TVOP-63-00549 TVOP-63-00549: Arden Landfill, Inc. (200 Rangos Lane, Washington, PA 15301) In accordance with 25 Pa. Code 127.424, 127.425 and 127.521, the Department of Environmental Protection (DEP) is providing notice that it intends to issue a Title V Operating Permit renewal to Arden Landfill, Inc. for their facility located in Chartiers Township, Washington County Arden Landfill, Inc., a municipal solid waste landfill has been in operation since 1977. Sources and the control devices at this facility include Landfill Operations, Paved and Unpaved Roads, six (6) 1148 Caterpillar 3516 landfill gas-fired internal combustion engines, Landfill Fugitive emissions (fugitive gas, material handling, & erosion), Diesel Emergency Generators, Degreasing Units, Primary Ground Flare (Enclosed Flare), Backup Flare (Candle), and Water Truck.

This facility has the potential emissions per year of the following type and quantity of air contaminants: 276.37 tons of carbon monoxide, 136.73 tons of nitrogen oxides, 89.14 tons of particulate matter, 55.14 tons of sulfur oxides, 56.92 tons of volatile organic compounds and 40.35 tons of HAPS.

The proposed TVOP contains emission restriction, testing, monitoring, recordkeeping, reporting and work practice standards derived from the applicable requirements of PA Code Title 25, Article III, Chapters 121 through 145, 40 CFR Part 62 Subpart 000, 40 CFR Part 63 Subpart AAAAA, 40 CFR Part 60 Subpart Cf, 40 CFR Part 60 Subpart 000 and 40 CFR Part 63 Subpart ZZZZ.

A person may oppose the proposed Title V Operating Permit by filing a written protest with the Department through Noor Nahar via mail to Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222. Each protest or set of written comments must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Title V Operating Permit (63-00549) and a concise statement of the objections to the Operating Permit issuance and the relevant facts upon which the objections are based.

The application, DEP's Review Memorandum, and the proposed permit are available for public review during normal business hours at DEP's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh PA 15222. A file

review can be scheduled through the DEP's website at: <https://www.dep.pa.gov/Citizens/PublicRecords/Pages/Informal-File-Review.aspx> or by contacting Tom Joseph, Facilities Permitting Chief, directly. All comments must be received prior to the close of business 30 days after the date of this publication.
