### DEPARTMENT OF ENVIRONMENTAL PROTECTION

#### **Availability of Proposed Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment Operations or Transmission Facilities (ESCGP-4); Availability for Public Comment**

[54 Pa.B. 3717]

[Saturday, June 29, 2024]

The Department of Environmental Protection (Department) is proposing to reissue the Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment Operations or Transmission Facilities (ESCGP-4). This general permit is issued under the authority of the Clean Streams Law (35 P.S. §§ 691.1—691.1001). The Department is not proposing significant changes in ESCGP-4 from ESCGP-3 at this time. The current ESCGP-3 is scheduled to expire at midnight on January 6, 2025.

The ESCGP-3 document is available on the Department's web site at <http://www.ahs.dep.pa.gov/eComment> or by contacting Joe Kelly at [josephkel@pa.gov](mailto:josephkel@pa.gov) or (717) 772-2199.

The Department is seeking public comment on ESCGP-4, Document Number 8000-PM-OOGM0003a. The Department must receive comments no later than July 29, 2024. Commentators are encouraged to submit comments using the Department's eComment system at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment) or by e-mail to [ecomment@pa.gov](mailto:ecomment@pa.gov). Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail, must include the originator's name and address. Written comments can be submitted to the Policy Office, Department of Environmental Protection, Rachel Carson State Office Building, P.O. Box 2063, Harrisburg, PA 17105-2063. Use "ESCGP-4" as the subject line in written communication.

### WATER OBSTRUCTIONS AND ENCROACHMENTS

- **E6307224-006. CNX Midstream Operating Company, LLC**, 1000 Horizon Vue Drive, Canonsburg, PA 15317, Morris Township, **Washington County**. U.S. Army Corps of Engineers Pittsburgh District. Application received: June 5, 2024. Latitude: 40.008701°, Longitude: -80.332410°.

The project proposes to expose a section of the existing NV-113 Pipeline, consisting of one (1) 12-inch steel gas pipeline and one (1) 20-inch HDPE fresh/produced water line, in preparation for longwall mining activities under these pipelines. Pipeline exposure is anticipated to last approximately one (1) year and will result in temporary impacts to two (2) intermittent streams (UNTs to Short Creek, a Trout Stocked Fishery) and their associated 50-foot assumed floodways. Total earth disturbance proposed is 7.9 acres. Proposed project impacts include excavation of the existing pipelines, installation of monitoring equipment, stockpiling of soils, installation of temporary flume pipes and riprap aprons, installation of timber mat bridges over streams for equipment crossing, and site restoration post-construction.
