PERMIT

PUBLIC NOTICE

Pursuant to the Surface Mining Conservation and Reclamation Act, the Bituminous Mine Subsidence and Land Conservation Act, the Pennsylvania Department of Environmental Protection Rules and Regulations and Clean Streams Law notice hereby is given that The Washington County Coal Company Washington County Mine; has made application to the Pennsylvania Department of Environmental Protection for renewing its existing underground coal mine, coal preparation plant and surface facilities and the related NPDES Permit No. PA0213608. The current Mining Activity Permit No. 63831302 was issued on March 30, 1987 and will expire on March 29, 2027.

The application includes a subsidence control plan for deep mining coal under South Strabane Townships in Washington County. The underground permit area currently consists of 43,783 acres, the subsidence control plan area consists of 273 acres, and surface activity site area consists of 425.81 acres. The portions of the underground permit area within the subsidence control plan boundary are generally situated beginning at the northwest corner of the subsidence control plan at location approximately 420 feet southeast of the Beagle Club Road, to a location approximately

715 feet south of Interstate 70 (Eighty-Four exit), to a location approximately 360 feet southeast of Beagle Club Road and approximately 1230 feet west of PASR 519, to a location approximately 2570 feet west of the intersection of PASR 519 and Rainey Road, to a location approximately 100 feet south of East Simmons Road, to a location approximately 300 feet north of Roberts Road, to a location approximately 420 feet southeast of the Beagle Club Road and the place of beginning. The approved subsidence control plan can be found on the Washington East U.S. Geological Survey 7 minute topographic maps. The boundaries of the underground mining permit and the approved subsidence control plan can be found on the maps in the permit renewal application.

The receiving streams of the existing NPDES discharge points are: Center Branch of Pigeon Creek, South Branch of Pigeon Creek, Little Chartiers Creek, various unnamed tributaries to Little Chartiers Creek, unnamed tributaries to Redd Run, and Redd Run. The location of each NPDES discharge point is listed and can be found on the Module 6.1 map in the permit renewal application.

HEARING

PUBLIC HEARING

Peters Township Council will conduct a Public Hearing on Monday, November 30, 2026 at 7:00 p.m. in the Peters Township Municipal Building located at 610 East McMurray Road, McMurray, PA 15317 regarding the proposed Peters Township Comprehensive Plan.

Interested residents and stakeholders are invited to attend, participate, and comment on the Comprehensive Plan, which has been on public display since October 14, 2026, and remains available for review at the municipal building and via the Township website at the following link:

https://www.peterstownship.com/240/Comprehensive-Plan

Adoption of the Plan, pending any substantial changes, may occur at the special scheduled meeting immediately following the public hearing or at a subsequent Township Council meeting.

You may at this time submit your comments in person, in writing, through a representative, or by email to mholdren@peterstownship.com

Intent to Remediate

Notice of an Intent to Remediate to an Environmental Standard.

(Sections 302(e)(1)(ii), 303(h)(1)(ii),

304(n)(1)(i), and 305(c)(1))

Pursuant to the Land Recycling and Environmental Remediation Standards Act, the act of May 19, 1995, P.L. 4, No. 1995-2, notice is hereby given that Greylock Midstream, LLC and Matthews Lubricants, Inc. have submitted to the Pennsylvania Department of Environmental Protection a Notice of Intent to Remediate (NIR) for the Veres Compressor Station site located in Greene Township, Greene County, Pennsylvania. The site is a residential property with a portion of the property currently being leased for oil and gas compressor station operations. On March 30, 2026, approximately 210 to 420 gallons of compressor oil were spilled onto the ground in the compressor area. Compressor oil migrated behind a retaining wall and periodically emanates from the

retaining wall drain pipe. The proposed approach for remediating affected soil and aggregate is physical removal. Oil emanating from the retaining wall drain pipe is being captured and removed. It is Greylock and Matthewss intention to remediate the release to Residential Statewide Health Standards. Whether or not remediation of groundwater is warranted, and the selection of a remedial approach for groundwater, will be determined based upon results of a Remedial Investigation. Cleanup to the Residential Statewide Health Standard allows future unrestricted use to include residential use.

Ginger Hill #1

PUBLIC NOTICE

Pursuant to the Surface Mining Conservation and Reclamation Act, the Pennsylvania Department of Environmental Protection Rules and Regulations and the Clean Streams Law, notice is hereby given that Washington County Land Resources, Inc., 46226 National Road, St. Clairsville, Ohio 43950 has submitted an Completion Report to the Pennsylvania Department of Environmental Protection, California District Mining Office for a Stage II & III bond release of the Ginger Hill #1 Coal Refuse Disposal Permit # 63733706.

The existing coal refuse disposal area, consisting of 208.5 acres, is located on property owned by Washington County Land Resources, Inc. and Mr. Sam Vignoli in Nottingham Township, Washington County. The site is situated approximately 3 miles west of the City of Monongahela, Pennsylvania. The site is located on the Monongahela 7.5-minute

USGS Quadrangle Map. The receiving stream of the permit area is a UNT to Dry Run Creek.

The current reclamation bond on account with the PADEP totals $82,000.00. The Stage II & III Completion Report is requesting a release of $82,000.00 for the total 208.5 acres of permitted property.

A copy of the application is available for public review at the California District Mining Office of the PA Department of Environmental Protection. Written comments, objections, or a request for a public hearing or informal conference may be submitted to the PA Department of Environmental Protection, California District Mining Office, 25 Technology Drive, Coal Center, PA 15423 within thirty (30) days of the final (4th) publication of this notice. The correspondence must include the person's name, address, telephone number, and a brief description as to the nature of the objection.

PERMIT - HAWKINS REFUSE SITE

Public Notice

Notice is hereby given under the Surface Mining Conservation and Reclamation Act and the Clean Streams Law that Pennsylvania Coal Reclamation, Inc., P.O. Box 136, Cuddy, PA 15031 has applied to the Pennsylvania Department of Environmental Protection for a major permit revision to Coal Mining Activity Permit #63813210, Hawkins Refuse Site, which was originally issued August 12, 1985.

The major permit revision would remove 30.2 acres now covered by Permit #63192001 and 0.8 acre of unaffected land from this permit. The acreage to be removed lies in the western half of the permit area. After this revision, the permit area will total 22.3 acres.

The permit area is at 99 Pump Station Road, Clarksville, PA 15322, northwest of Pump Station Road, southwest of SR 2041 (Morey Road), and northeast of Tenmile Creek and is centered approximately 2,300 feet northwest of the village of Sandy Plains as shown on the Mather and Ellsworth 7.5-minute USGS topographic maps. When it was active the operation discharged to unnamed tributaries to Tenmile Creek.

A copy of the application is available for public inspection at PA-DEP, New Stanton District Mining Office, 131 Broadview Road, New Stanton, PA 15672. Written comments, objections, or requests for an informal conference must be submitted to that office within thirty (30) days after the final (4th) publication of this notice and must include the persons name, address, telephone number, and a brief statement describing the objection(s).

Plan update

PUBLIC NOTICE

Notice is hereby given that South Franklin Township, political subdivision in Washington County, Pennsylvania, with an address of 100 Municipal Road, Washington, PA 15301, (Telephone: 724-225-4828), intends to adopt an Act 537 Sewage Facilities Plan Update.

The Act 537 Plan Update was prepared by Bankson Engineers, Inc., on behalf of the Township.

This Act 537 Plan Update contemplates the sewerage needs of South Franklin Township residents in the Lagonda and Airport areas, in the State Route 0018 Chartiers Creek watershed. The scope of work involved with the recommended alternative includes construction of a new gravity collection system to service 417 proposed equivalent dwelling units (EDUs), with the construction of a sewage pump station and wastewater treatment facility. All proposed connections will be assessed a tap-in fee, as well as monthly fees in accordance with the Townships sewer rate schedule. One residential customer in North Franklin Township will also be provided sewerage service as part of the project.

Persons desiring additional information concerning the Act 537 Plan Update should contact South Franklin Township, as indicated above, within the 30-day comment period. The Act 537 Plan Update is available for review by Township residents at the Township Building, located as indicated above, between 9:30 a.m. and 3:30 p.m., Monday through Friday. The document can also be viewed on the South Franklin Township Website (https://southfranklintwp.org/). The official dates for the public comment period will be November 9, 2026, through December 9, 2026. South Franklin Township will address any comments before considering the adoption of the Act 537 Plan Update Amendment. Following the completion of the public comment period, South Franklin Township (and North Franklin Township) will contemplate adoption of the Act 537 Plan Update, by official resolution. Following any municipal adoption, the Plan Update will be submitted to the Pennsylvania Department of Environmental Protection for final approval.
